

## TECHNICAL DATA SHEET

### SNO-GEL

Viscous cleaner and stain remover

#### DESCRIPTION

SNO - GEL is a yellow to colourless, thick liquid bleach containing not less than 5% Sodium Hypochlorite (or 4.9% Available Chlorine), carefully selected surfactants and thickeners.

#### APPLICATIONS

1. Formulation is ideal for removing stains and deodorizing all white and washable surfaces such as ceramics, porcelain, enamel, walls, dust bins plastics, toilet bowls and drains etc. with special cleaning ingredients.
2. Removes mold and mildew in kitchens, bath / shower rooms and outdoors.

**Caution:** Do not use on satins, silks, nylon, rayon, woolens, leather or with other toilet or household cleaner.

#### PRODUCT FEATURES

SNO - GEL .....

1. contains Chlorine and is a very effective cleaner.
2. thickening facilitates controlled dispensing from the bottle and also increases contact time with inclined surfaces eg. toilet bowls and drains.

#### DIRECTIONS FOR USE

1. Bath, Basin and Shower: Apply SNO - GEL directly, wipe area and rinse (dilute 125 ml in 5 litres water).
2. Sink and Kitchen Surfaces: Apply SNO - GEL to damp cloth or sponge, wipe area and rinse.
3. Toilet Bowls and Drains: Pour 100ml of SNO - GEL around the sides of the pan. Leave for 15 - 20 minutes brush well and flush. Do not use with any other toilet/household cleaner.
4. General cleaning and Deodorizing: Dilute 125 ml in 5 litres water.

**NB:** ALWAYS REMEMBER TO RINSE WELL AFTER USING SNO - GEL

## PRECAUTIONS

1. All chlorine bleaches are high corrosive oxidizing agents. Avoid contact of the undiluted SNO - GEL on any surface of fabric. Should this occur rinse with water immediately.
2. Do not mix with any reducing agents such acids, solvents (brake fluids) and combustible material.
3. Avoid contact with skin. Should the product be used extensively, use PVC gloves and boots. Avoid eye contact, wear goggles if necessary.
4. SNO - GEL decomposes slowly if exposed to light and heat - store in a dark and cool place as possible.
5. When a fabric has been soiled with disinfectants containing chlorodexidine (e.g Savlon, Hibitane) it should NOT be treated with SNO - GEL as this will cause yellow or brown stains which then become permanent.

## FIRST AID

Swallowing: Give plenty of water or milk to drink and seek immediate medical attention. Do not induce vomiting.

Inhalation: Move to fresh air and seek medical assistance if necessary.

Skin contact: Wash with soap and water and apply skin cream. In case of burn seek medical assistance.

Eye contact: Wash thoroughly with water for 10 minutes and seek medical attention.

## STORAGE

Store tightly sealed containers in cool, dry area away from direct sunlight and sources of heat. Shelf life of properly stored material is at least one year from date of manufacture.

## PACKAGING

Available pack sizes are 5 litre and 25 litre plastic containers
