

WHAT IS G-CIDE

What makes **G-CIDE™** unique? It does not require alcohol to **effectively kill 99.9%** of bacteria, viruses, fungi, moulds and spores.

G-CIDE™ is a unique biocide (*able to kill living organisms, especially microorganisms*) that is used in our disinfectant range as the active ingredient to kill **99.9%** of all germs it comes into contact with.

Including the CORONA VIRUS

HYDROSAN RANGE

Anti-Microbial Hand Sanitizer

an anti-microbial hand sanitizer with moisturisers to prevent dryness of skin

Ant-Microbial Hand Soap

an anti-microbial liquid hand soap with moisturisers to prevent dryness of skin

Hard Surface Disinfectant Detergent

a clear, odourless, food grade detergent disinfectant used on all hard surfaces

Lemon All Purpose Disinfectant Cleaner

concentrated all purpose disinfectant detergent for use on all hard surfaces

Heavy Duty Cleaner

a disinfectant/detergent mainly used on all hard surfaces and effective against human and animal fats, vegetable and plant oils

Floor & Tile Cleaner

a powerful, concentrated, high foaming, ph neutral disinfectant detergent

Pink Disinfectant

a pink, pleasantly fragranced solution used in all areas where disinfection is required

Rosesan

an effective all purpose sanitary cleaner with strong, lasting fragrance

With the development of **G-CIDE™**, we now have the most effective chemical in the world for killing bacteria, viruses, fungi, moulds and spores and it is user-friendly! The easy-to-use nature of **G-CIDE™** containing products,

namely our Hydrosan range

means that no specialized training is required for staff that will be using them. The concentrated solutions are simply diluted prior to use, using our recommended dilutions, whenever and wherever required.

Our unique hand sanitizer contains G-CIDE™ and does not require alcohol to effectively kill 99.9% of bacteria viruses, fungi, moulds and spores. The alcohol content in our hand sanitizer is only for drying of the hands.
